## DETAILED ACTION

### *Election/Restrictions*

1. Claim 9 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 12-15-06.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1,3,6,7 are rejected under 35 U.S.C. 102(b) as being anticipated by Miller.

Miller discloses an elliptical exercise device having foot pedals 30a, cranks 32, first linkages (38,48,49) which act to create pural motion restriction of the foot pedals. Note that cranks 32 are mounted eccentrically on cam 38 whereby the axis of rotation is displaceable, and that the chain broadly includes linkages.

As to claim 3, the cranks are considered to have both a circular motion and a translation along an x coordinate direction.

As to claim 6, note auxillary cranks 20 . the foot pedals 30 appear to remain relatively parallel to each other.

As to claim 7, the first link is met by the cam 38.

***Allowable Subject Matter***

4. Claims 2,4,5,8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure..
